

## Installation Instructions

---

This document shall serve as a guide for the installation and uninstallation process of *Schein*.

### 1 Requirements

Operating System: Microsoft® Windows® Vista / 7 / 8 / 8.1

Processor: 1.6GHz or faster

Memory: 768 MB or more

Hard Disk Space: 1,1GB or more

Video Card: 256 MB SM3 DirectX® 9.0c

DirectX® Version: DirectX® 9.0c

### 2 Installation

Double click on the installer you downloaded.

Before beginning with the installation, your computer might prompt a Security Warning. Click on *Run* to start the installation process.

Select the language for the installation wizard. English and German are available.

To start the setup click *Next*.

Select the directory where you want to install the game and click *Next*.

Schein will create a folder in your Start menu. Enter the desired name and continue with *Next*.

You will be asked if you wish to create a shortcut for *Schein* on your Desktop. Make your selection and click *Next* to continue.

Review your settings and start the installation by clicking *Install*.

It may take a couple of minutes to install the content of the game.

## ADDITIONAL COMPONENT: DIRECT X

If this is not yet installed on your system, you will be asked to install the Direct X Runtime Components. This is necessary for *Schein* to run. Accept the license agreement and click *Next*.

Begin the installation by clicking *Next*.

The installation may take a little while.

When the installation is complete, click *Finish* to continue installing *Schein*.

### ADDITIONAL COMPONENT: MICROSOFT VISUAL C++

Finally you may need to install Microsoft Visual C++ 2012. Check the box to agree to the conditions and click *Install*.

If however you already have Microsoft Visual C++ 2012 installed, you might see this window instead. You can simply *Close* it and confirm cancelling the installation. You may then skip forward to the end of installation.

Wait for the installation to complete. This should be quick.

Close the setup of Microsoft Visual C++ when done.

Click *Finish* to exit the setup when the installation is complete.

That's all there is to it. Enjoy playing *Schein*!

### 3 Uninstall

*Schein* can be uninstalled with only two clicks. Locate the uninstaller in the folder created in your Start menu.

Run it and *confirm* twice.

## Schein Playing Manual

---

Start the game, by double clicking the shortcut on your desktop (if you have chosen to create one), or by selecting **Schein** in your Start menu.

Wait for the game to load...

Then press **any key** to start the game, and begin discovering the swamp!

*Schein* can be played with your *keyboard*, using the arrow keys, or alternately with WASD-configuration. **Left** and **Right** are for running, **Up** is for jumping or entering doors and **Down** is for picking up Lanterns. Once you have obtained the power, the green light can be switched on and off with the **number 1** key. Further lights may be acquired later in the game, which can then be toggled with the **number 2** and **number 3** keys. **M** shows the world map and **Escape** opens the menu, in which you can navigate with the **Arrow** keys and select with **Enter**.

We also support a variety of gamepads. In the default configuration the movement controls are mapped to the **D-Pad**, where **Up** once again lets you enter doors. On the *Xbox 360 USB-Controller* use **A** to jump, and pick up lanterns with **X**. Use the green light with the left upper **shoulder button** and later make use of the remaining shoulder buttons for the other lights.

However you may also reconfigure the controls for your game pad in the Menu under *Settings – Controls*.

If you require further assistance or have any questions or comments, don't hesitate to contact us at [info@scheingame.com](mailto:info@scheingame.com).
